Philip Morris International to Present at 2024 Jefferies Virtual Reduced Risk Seminar

STAMFORD, CT – May 2, 2024 – Philip Morris International Inc. (PMI) (NYSE: PM) will present at the 2024 Jefferies Virtual Reduced Risk Seminar on May 7, 2024.

“The Science of Smoke-Free Products & Nicotine” will be presented by Gizelle Baker, VP Global Scientific Engagement, at 09:00 a.m. ET. “Leading & Transforming Through Innovation in Smoke-Free Products” will be presented by Stefano Volpetti, President Smoke-Free Inhalable Products & Chief Consumer Officer, at 11:00 a.m. ET.

The webcast of the presentations will be available at www.pmi.com/2024jefferiesrrp. The slides and archived recordings will be available at the same link.

The webcast may also be accessed on mobile devices by downloading PMI’s free Investor Relations App at www.pmi.com/irapp.

Philip Morris International: Delivering a Smoke-Free Future

Philip Morris International (PMI) is a leading international tobacco company, actively delivering a smoke-free future and evolving its portfolio for the long term to include products outside of the tobacco and nicotine sector. The company’s current product portfolio primarily consists of cigarettes and smoke-free products. Since 2008, PMI has invested over \$12.5 billion to develop, scientifically substantiate and commercialize innovative smoke-free products for adults who would otherwise continue to smoke, with the goal of completely ending the sale of cigarettes. This includes the building of world-class scientific assessment capabilities, notably in the areas of pre-clinical systems toxicology, clinical and behavioral research, as well as post-market studies. In 2022, PMI acquired Swedish Match – a leader in oral nicotine delivery – creating a global smoke-free champion led by the companies’ IQOS and ZYN brands. The U.S. Food and Drug Administration has authorized versions of PMI’s IQOS devices and consumables and Swedish Match’s *General* snus as Modified Risk Tobacco Products. As of December 31, 2023, PMI’s smoke-free products were available for sale in 84 markets, and PMI estimates that approximately 33 million adults around the world use PMI’s smoke-free products. Smoke-free business accounted for approximately 37% of PMI’s total full-year 2023 net revenues. With a strong foundation and significant expertise in life sciences, PMI announced in February 2021 its ambition to expand into wellness and healthcare areas and, through its Vectura Fertin Pharma business, aims to enhance life through the delivery of seamless health experiences.
