Philip Morris International to Host Webcast of Presentation at the 2026 dbAccess Global Consumer Conference

STAMFORD, CT – May 26, 2026 – Philip Morris International Inc. (PMI) (NYSE: PM) will host a live webcast of the company's remarks and Q&A session with Jacek Olczak, Group CEO PMI, at the 2026 dbAccess Global Consumer Conference on Tuesday, June 2, 2026, at approximately 11:15 a.m. CET (5:15 a.m. ET). The webcast will be available [here](#), with a post-event recording available for one year at the same site.

The webcast will provide a live stream of the entire PMI session and can also be accessed on mobile devices by downloading PMI's free Investor Relations Mobile App at www.pmi.com/irapp.

Philip Morris International: A Global Smoke-Free Champion

Philip Morris International is a leading international consumer goods company, actively delivering a smoke-free future and evolving its portfolio for the long term to include products outside of the tobacco and nicotine sector. The company's current product portfolio primarily consists of cigarettes and smoke-free products, including heat-not-burn, nicotine pouch and e-vapor products. Our smoke-free products are available for sale in over 105 markets, and as of December 31, 2025, PMI estimates they were used by over 43 million legal-age consumers around the world, many of whom have moved away from cigarettes or significantly reduced their consumption. The smoke-free business accounted for 43% of PMI's first-quarter 2026 total net revenues. Since 2008, PMI has invested over \$16 billion to develop, scientifically substantiate and commercialize innovative smoke-free products for adults who would otherwise continue to smoke, with the goal of completely ending the sale of cigarettes. This includes the building of world-class scientific assessment capabilities, notably in the areas of pre-clinical systems toxicology, clinical and behavioral research, as well as post-market studies. Following a robust science-based review, the U.S. Food and Drug Administration has authorized the marketing of Swedish Match's *General* snus and ZYN nicotine pouches and versions of PMI's IQOS devices and consumables - the first-ever such authorizations in their respective categories. Versions of IQOS devices and consumables and *General* snus also obtained the first-ever Modified Risk Tobacco Product authorizations from the FDA. With a strong foundation and significant expertise in life sciences, PMI has a long-term ambition to expand into wellness areas. References to "PMI", "we", "our" and "us" mean Philip Morris International Inc., and its subsidiaries. For more information, please visit www.pmi.com and www.pmis-science.com.
