**PHILIP MORRIS INTERNATIONAL INC. (PMI) TO HOST WEBCAST  
OF PRESENTATION AT 2021 GOLDMAN SACHS GLOBAL STAPLES FORUM**

NEW YORK, May 11, 2021 – Philip Morris International Inc. (PMI) (NYSE: PM) will host a live video webcast of the company's remarks and question-and-answer session by Jacek Olczak, Chief Executive Officer, at the 2021 Goldman Sachs Global Staples Forum at [www.pmi.com/2021goldmansachs](http://www.pmi.com/2021goldmansachs) on Tuesday, May 18, 2021, at approximately 9:40 a.m. ET.

The webcast will be held in a virtual format and provide a live video of the entire PMI session.

The webcast can also be accessed on iOS or Android devices by downloading PMI's free Investor Relations Mobile Application at [www.pmi.com/irapp](http://www.pmi.com/irapp).

An archived copy of the webcast will be available at [www.pmi.com/2021goldmansachs](http://www.pmi.com/2021goldmansachs) until 5:00 p.m. ET on Wednesday, June 16, 2021.

Presentation slides will be available on the same site.

**Philip Morris International: Delivering a Smoke-Free Future**

Philip Morris International (PMI) is leading a transformation in the tobacco industry to create a smoke-free future and ultimately replace cigarettes with smoke-free products to the benefit of adults who would otherwise continue to smoke, society, the company and its shareholders. PMI is a leading international tobacco company engaged in the manufacture and sale of cigarettes, as well as smoke-free products, associated electronic devices and accessories, and other nicotine-containing products in markets outside the U.S. In addition, PMI ships versions of its IQOS Platform 1 device and consumables to Altria Group, Inc. for sale under license in the U.S., where these products have received marketing authorizations from the U.S. Food and Drug Administration (FDA) under the premarket tobacco product application (PMTA) pathway; the FDA has also authorized the marketing of a version of IQOS and its consumables as a Modified Risk Tobacco Product (MRTP), finding that an exposure modification order for these products is appropriate to promote the public health. PMI is building a future on a new category of smoke-free products that, while not risk-free, are a much better choice than continuing to smoke. Through multidisciplinary capabilities in product development, state-of-the-art facilities and scientific substantiation, PMI aims to ensure that its smoke-free products meet adult consumer preferences and rigorous regulatory requirements. PMI's smoke-free product portfolio includes heat-not-burn and nicotine-containing vapor products. As of March 31, 2021, PMI's smoke-free products are available for sale in 66 markets in key cities or nationwide, and PMI estimates that approximately 14.0 million adults around the world have already switched to IQOS and stopped smoking.
